The screenshot displays the MySQL Workbench interface. The top menu bar includes File, Edit, View, Query, Database, Server, Tools, Scripting, and Help. The left sidebar shows the 'SCHEMAS' panel with a tree view of databases: e\_commerce, loan\_prediction, students, and sys. The 'loan\_prediction' database is expanded, showing tables, views, stored procedures, functions, and triggers. The 'user' table is selected. The main query editor shows a query: `SELECT * FROM loan_prediction.user;`. The 'Result Grid' tab is active, displaying the query results in a table with columns 'id', 'username', and 'password'. The results show one row with values 1, 123, and 123. The bottom panel shows the 'Output' tab with a table of execution logs, including timestamps, actions, messages, and durations.
